

Toyota Announces the 15th Toyota Dream Car Art Contest Winners

- Grand Prizes Go to the Children from Thailand, China and USA -

Aichi, Japan—Toyota Motor Corporation (Toyota) announced winners of the 15th Toyota Dream Car Art Contest.

《Grand Prizes》

<Ages 7 and under>

“Inventor’s Car”

Kawiphath Thonthaisong
(Thailand / Age 7)

The concept is “recycling garbage to valuable products for everyday usage”. This car is designed to be a garbage sucker. It will suck all the garbage in and transform it to new products so that people can reuse them again for their daily life. Recycled garbage products will also be donated to people who are in need to support their life usefully.

<Ages 8~11>

“Cosmic Garbage Cleaning Truck”

Qingke Tian
(China / Age 11)

The future universe will produce a lot of garbage because of human development behavior. This car, a bit like a robot, is designed to clean garbage in the universe. It’s a cleaning vehicle which protects environment.

<Ages 12~15>

“Toyota Dream Orchestra”

Ava Yeh
(USA / Age 15)

My dream car is a fusion of music and plants. It introduces the world of music with the mini-piano ships flying about, people are picked up and are able to experience music for themselves. This car can also help soothe people, and even have positive effects on physical health conditions. People can develop a deeper appreciation for the environment, inspiring them to nurture their own homes.

《Special Awards》

<Waku-Doki* Award> *“Waku-Doki” : Exceeding expectations brings joy & smile to our customers.

“Joy of car ownership” & “Fun-to-Drive spirit” are related to a sense of “Waku-Doki.”

“Lightning Flame Breather”

Reshav Sharen Pratap
(Fiji / Age 9)

This dream car is fast as lightning. It has the ability to turn invisible and can transform into any kind of transport like an underwater minivan.

<Mobility for All Award>

Awarded to the artwork expressing the car which realizes “Freedom of moving to all people.”

“Toyota Without Borders”

Valery Johanna Pinzon Latorre
(Colombia / Age 10)

This is a car that will achieve the union and freedom of all countries, people and animals in the world, as it is capable of breaking down borders that have been created by people. It also has the ability to overcome natural borders without destroying them by creating bridges, it can also mobilize people and animals by air, land and water, using solar energy. It is capable of reaching any part of the world, transmitting peace, happiness, freedom, solidarity and unity among all continents.

■ Toyota Dream Car Art Contest Outline

The Toyota Dream Car Art Contest, first held in 2004, gives children around the world a hands-on experience to feel the joy and importance of having dreams. It is also meant to provide children with an opportunity for developing an interest in cars. Thanks to the support and cooperation of the children around the world who draw/paint their works and send them in, and of the distributors and affiliates who organize local competitions in their respective countries or regions, the contest marked its 15th year in 2022.

Despite the COVID19 situation, entries in this year's contest numbered approximately 530,000 from 78 countries and regions. From this year, we started accepting CG (Computer Graphic) artwork. The award-winning entries were selected among the winners in the national contests. National contests were held around the world from March 2021 to February 2022, with the winning artworks submitted to be judged for the world contest. In May 2022, besides Toyota Motor Corporation, art experts and automotive specialists from outside Toyota judged the entries and selected the award winners in the contest's three categories by age. Award ceremonies will be held in August or later in each winner's country. The award ceremony will be posted on the official website of the Toyota Dream Car Art Contest. (<https://www.toyota-dreamcarart.com/>)

<The Awards>

Grand Prize (1) & Best Finalists (7) by three age categories

: "Age 7 and under," "Ages 8-11," and "Ages 12-15"

Special Award

The Waku-Doki Award, The Mobility for All Award

■ General Evaluation of the 15th Toyota Dream Car Art Contest Artworks

We felt that a different and more expansive view of the world was being created in the artworks. We were impressed by the fact that diversity is becoming more prevalent among children and that they see more into the future than adults. We also think that the works reflect the times well. We think it is important for children to see the world in which they ride in cars, envisioning various dreams. Considering that CG artwork also carry the fresh colors and dreams of children, we think it would be good to see a few more CG artwork in future.

■ Judges' Comments

Grand Prize

<Age 7 and under Category> "Inventor's Car"

-Useful recycling cars are what the world needs today.

-The way how the garbage sucked in vigorously is transformed into a beautiful work of art is boldly and carefully expressed.

<Ages 8-11 Category> "Cosmic Garbage Cleaning Truck"

Strong artwork. I spent a lot of time admiring the imposing cleaning truck and even became interested in its structure.

I like the imagination and the detail with which it is expressed.

<Ages 12-15 Category> "Toyota Dream Orchestra"

- I was impressed by the skill and energy of the person who painted this picture.

- In a world where music and mobility merge, I wanted to move pleasantly amongst the grasses and flowers!

Special Award

<Waku-Doki Award> "Lightning Flame Breather"

- I think Waku-Doki means speed and the joy of driving a car.

- I am attracted to fast cars. I want to drive one!

<Mobility for All Award> "Toyota Without Borders"

The idea of breaking down borders that separate families, friends, and cultures has a strong message and is highly unique.
